

Science - The Human Body and Five Senses

Year 1
Autumn Term 1

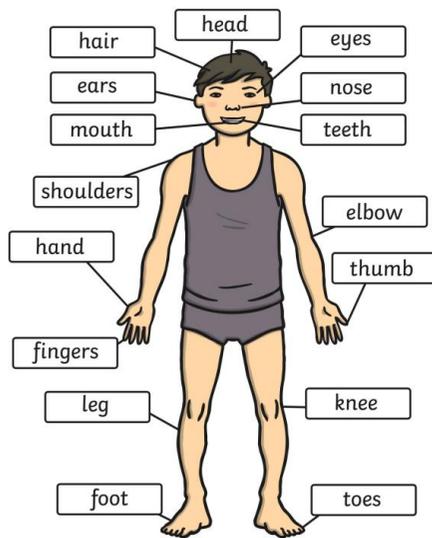

Key Learning

Name and label parts of the human skeleton.

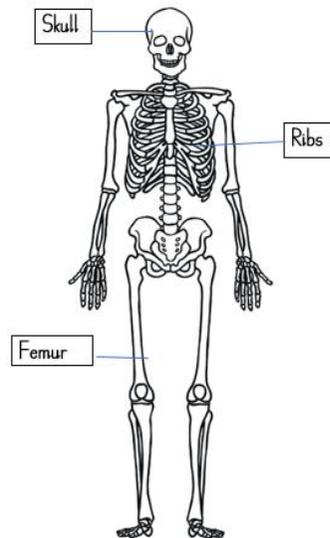

Name and label parts of the human body,

Know which part of the body is associated with the five senses.

Parts of the Body

Skeleton

Key Vocabulary

Skeleton	The bones of the body form a framework called the skeleton.
Bones	Bones provide support for our bodies and help build our body shape.
Body	The physical structure, including the bones, flesh, and organs, of a person or an animal.
Muscles	A tissue of the body consisting of long cells that can contract and produce motion.
Sight	Your eyes let you see all the things around you.
Smell	You smell using your nose. Your nose can tell if things smell nice or not nice.
Taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
Touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
Hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.

Our senses
